DATE MAILED:

**Please find below and/or attached an Office communication concerning this application or proceeding.**

**Commissioner for Patents**

Upon Review of applicant's amendment filed March 1, 2005, it was discovered that applicant filed the amendment over one month from the mailing date of the Notice of Non-Compliance sent out on December 20, 2004, from which the time for response continues to run. Therefore, applicant needs to file a petition for extension of time of 2 months, along with the fees associated therewith, to extend the time for reply to March 20, 2005 and consider the amendment "timely filed". (Fees for extensions of time as well as petitions to extend time can be found at [www.uspto.gov](http://www.uspto.gov)). If applicant cannot get the petition for extension of time, along with the associated fees, in to the Office by March 20, 2005, applicant can buy up to 3 more months to make the filing timely. Included in this communication is a copy of applicant's last submitted amendment with corrections that should be made. Basically, delete all that is crossed out in red. This would make the amendment proper with respect to 37 CFR 1.121. Time to properly respond is still running from 12/20/2004 as noted before.
